

## Construction OS&H

### A training course for construction clients

#### End of course evaluation

Please complete the following course evaluation carefully and thoroughly. We shall use the comments that you provide to improve our training in the future.

An example of a completed module evaluation table is shown below.

Module	Z	Health hazards			
	Excellent				Poor
Score	5	4	3	2	1
Presentation	○				
Content	○				
Engagement	○				
Comments <i>I found the module very interesting and useful. The tutor explained it all very clearly and the handouts were good. I enjoyed the discussions and the exercises. It was all very relevant to my job and I shall certainly use quite a lot of it when I return to work.</i>					

Module	A	Fundamental principles
